65 Easy Tunes for Mandolin

Stephens, A

An attractive collection of tunes suitable for players from the very early stages of learning to play and read, through to approximately grade 1 to 2 level. All the tunes in this book have chord symbols allowing a teacher or another student to play along on guitar or mandolin or another instrument. Several of the tunes are Canons (or rounds) and can be played as a duet. Other tunes have been "paired up" and although they are successful tunes on their own, they can be played together as a satisfying duet & can be used in group teaching situations.
